Part 2: Product Terms: Special Conditions of the Securities

§ 1 Security Right

(1) Security Right of the Securityholders

The Issuer hereby warrants to the Securityholder (§ 4 (2)) of each Security relating to the Price of the Underlyings in accordance with these Conditions **and subject to an early redemption of the Securities in accordance with § 2 of these Conditions** that such Securityholder shall have the following right (the "Security Right"):

- (a) If the Securities have not been redeemed early in accordance with § 2 of these Conditions **and if a Kick-In Event** (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") **has not occurred**, the Securityholder is entitled to receive the Nominal Amount (the "Redemption Amount").
- (b) If the Securities have not been redeemed early in accordance with § 2 of these Conditions **and if a Kick-In Event** (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") **has occurred**, the Securityholder is entitled to receive the Settlement Amount (as defined below), commercially rounded to two decimal places (the "Redemption Amount").

The "Settlement Amount" is calculated in accordance with the following formula:

$$\text{Nominal Amount} \times \frac{\text{Settlement Price of the Relevant Underlying}}{\text{Strike of the Relevant Underlying}}$$

(2) Determinations and Calculations in connection with the Security Right

Any determination and calculation in connection with the Security Right, in particular the calculation of the Redemption Amount, will be made by the Calculation Agent. Determinations and calculations made in this respect by the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders.

§ 2 Early Redemption of the Securities

(1) Early Redemption Amount

In case of the occurrence of an Early Redemption Event, the Securities will expire early on the Early Expiration Date, and the Securityholder is entitled to receive the Early Settlement Amount in relation to the Early Expiration Date (the "Early Redemption Amount").

(2) Early Redemption Event

The Early Redemption Event is defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities".

§ 3 Coupon Amount

(1) Coupon Amount

- (a) Furthermore, the Securityholder is entitled to receive the payment of the Coupon Amount in the Redemption Currency on the relevant Coupon Payment Date in relation to the preceding Coupon Period, **provided** that the Securities did not expire early due to the occurrence of an Early Redemption Event in accordance with § 2 of these Conditions **and that no Coupon Amount**

Default Event (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") has occurred in relation to this Coupon Period.

For the avoidance of doubt, any payment due in respect of the Coupon Amount in accordance with § 3 (1) of these Conditions in relation to the Early Expiration Date shall still be paid out.

- (b) **In case of the occurrence of a Coupon Amount Default Event** (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") in relation to a Coupon Period, the Securityholder will not receive payment of the Coupon Amount in relation to the relevant Coupon Period.
- (c) **In case of the occurrence of a Coupon Amount Catch-up Event** (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities"), the Securityholder will receive payment of the Coupon Amount in relation to the relevant Coupon Period_(n) **and** any preceding Coupon Periods for which a Coupon Amount has not been paid due to the occurrence of a Coupon Amount Default Event.

For the avoidance of doubt: For each Coupon Period, the Coupon Amount shall be paid only once.

(2) Payment of the Coupon Amount

The relevant Coupon Amount shall be paid on the respective Coupon Payment Date. The provisions of these Conditions relating to the Redemption Amount (§ 1 (1)) shall apply *mutatis mutandis* to the payment of the Coupon Amount.

(3) Dirty Price

There will be no separate payments with respect to accrued Coupon Amounts. Accrued Coupon Amounts will be reflected in the on-going trading price of the Securities (Dirty Price).

PART B – OFFERING AND SALE

I. Offering for Sale and Issue Price

Offering for Sale and Issue Price:

The UBS Memory Express (Multi) Certificates (the “**Securities**”, and each a “**Security**”) are issued by the Issuer in the Aggregate Nominal Amount and with the Denomination of the Nominal Amount per Security.

It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and shall place the Securities for sale at the Issue Price under terms subject to change in the Public Offer Jurisdictions (as defined in “VI. Consent to Use of Prospectus” below) during the Subscription Period (as defined in “II. Subscription, Purchase and Delivery of the Securities” below).

The Issue Price was fixed at the Start of the public offer of the Securities (as defined in “II. Subscription, Purchase and Delivery of the Securities” below). After closing of the Subscription Period (as defined in “II. Subscription, Purchase and Delivery of the Securities” below) the selling price will then be adjusted on a continual basis to reflect the prevailing market situation.

The Manager (as defined below) shall be responsible for coordinating the entire Securities offering.

Aggregate Nominal Amount:

The Aggregate Nominal Amount equals up to NOK 40,000,000.00.

The Aggregate Nominal Amount will be fixed at the end of the Subscription Period.

¹ Effective 1 January 2019, UBS AG refined the presentation of dividend income and expense. This resulted in a reclassification of dividends from *Interest income (expense) from financial instruments measured at fair value through profit or loss* into *Other net income from financial instruments measured at fair value through profit or loss* (prior to 1 January 2019: *Other net income from fair value changes on financial instruments*). *Net Interest Income* and *Other net income from financial instruments measured at fair value through profit or loss* for prior-year comparative was restated accordingly.

² Balance sheet information for year ended 31 December 2017 is derived from the Annual Report 2018.

³ The leverage ratio denominators as of 30 June 2020 and 31 March 2020, which are used for the return calculation, do not reflect the effects of the temporary exemption that has been granted by FINMA in connection with COVID-19.

⁴ Based on the Swiss systemically relevant bank framework as of 1 January 2020.

⁵ The information as published in Swiss francs in the Annual Report 2017 for the period ended on 31 December 2017 (CHF 33,240 million) was audited.

⁶ Within the context of the current COVID-19 pandemic and related measures adopted by governments and regulators, FINMA has permitted banks to temporarily exclude central bank sight deposits from the leverage ratio denominator for the purpose of calculating going concern ratios until 1 January 2021.

⁷ Includes invested assets for Global Wealth Management, Asset Management and Personal & Corporate Banking. Calculated as the sum of managed fund assets, managed institutional assets, discretionary and advisory wealth management portfolios, fiduciary deposits, time deposits, savings accounts, and wealth management securities or brokerage accounts. This measure provides information about the volume of client assets managed by or deposited with UBS for investment purposes.

What are the key risks that are specific to the issuer?

Credit risk in relation to UBS AG as issuer Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include changes in market and macroeconomic conditions, credit risk exposure to clients and counterparties, results of claims, disputes, legal proceedings and government investigations, availability of funding sources, changes in the laws and regulations affecting financial institutions, heightened regulatory expectations and regulatory changes, and reputational damage and operational risks. If UBS experiences financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS's shareholders and creditors. If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or total loss on the securities.

Section C – Key Information on the Securities			
What are the main features of the Securities?			
Type and form of the Securities			The Securities are certificates with no capital protection.
The Securities are issued in the form of securities in uncertificated and dematerialised book-entry form under Norwegian law. The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.			
Rights attached to the Securities; payment profile at scheduled maturity			
The Securities provide Securityholders at maturity with a claim for payment of the Redemption Amount in the Redemption Currency. In particular, the Redemption Amount, if any, to be received by the Securityholder at maturity of the Securities depends on the performance of the Underlyings and whether or not a so-called " Kick-In Event " has occurred., i.e. whether the Price of at least one Underlying _(i) on the Valuation Date is lower than the respective Kick In Level _(i) .			
If the Securities do not expire early, on the relevant Maturity Date, Securityholders are entitled to receive payment of the Redemption Amount determined as of the relevant Valuation Date.			
The " Redemption Amount " in respect of the Securities is determined as follows:			
(a) If a Kick-In Event has not occurred, the Securityholder is entitled to receive the Nominal Amount.			
(b) If a Kick-In Event has occurred, the Securityholder is entitled to receive the Nominal Amount multiplied by the Settlement Price _(i) of the Underlying _(i) with the lowest performance divided by the Strike _(i) of such Underlying _(i) .			
In case of the occurrence of an Early Redemption Event, the Securities will expire early on the respective Early Redemption Observation Date, and the Securityholder is entitled to receive the Early Redemption Amount on the relevant Maturity Date in the Redemption Currency. In such context, an " Early Redemption Event " occurs if the Price of all Underlyings _(i) on an Early Redemption Observation Date is equal to or higher than the respective Early Redemption Level _(i) .			
Coupon Amount(s)	Indicatively NOK 350, minimum NOK 300. The Coupon Amount will be determined on the Fixing Date.	Coupon Default Level_(i) / Coupon Amount Catch-up Level_(i)	80 % of the Reference Level _(i)

4	SalMar ASA (ISIN: NO0010310956)	NOK	Oslo Stock Exchange		

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the Price of the Underlyings or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

Coupon payments

If the Securities have not expired early, on each Coupon Payment Date, Securityholders are entitled to receive payment of the Coupon Amount in the Redemption Currency, subject to the following conditions.

If, on any Coupon Observation Date, a "**Coupon Amount Default Event**" occurs, i.e. if the Price of at least one Underlying_(i) is lower than the respective Coupon Default Level_(i), Securityholders will not receive payment of the Coupon Amount on the relevant Coupon Payment Date.

However, if a Coupon Amount Default Event has occurred, but, on a subsequent Coupon Observation Date, a "**Coupon Amount Catch-up Event**" occurs, i.e. if the Price of all Underlyings_(i) is, on such Coupon Observation Date, equal to or higher than the respective Coupon Amount Catch-up Level_(i), on the following Coupon Payment Date Securityholders will receive payment of the Coupon Amount in relation to the relevant Coupon Observation Date and any preceding Coupon Observation Dates for which a Coupon Amount has not been paid.

Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

Restrictions on the free transferability of the Securities

The Securities are freely transferrable.

Where will the Securities be traded?

It is intended that application for listing of the Securities on Nasdaq Stockholm, market segment STO Structured Products NOK, will be made.

What are the key risks that are specific to the Securities?

The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities.

Specific risks related to the dependence on the Underlyings. The Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlyings. In particular, an unfavourable performance of the Underlyings could reduce the Redemption Amount payable to the Securityholders. If the Settlement Price of at least one Underlying is below the relevant Kick-In Level, the Redemption Amount may be lower than expected by investors and investors may even suffer **a total loss of the invested capital**.

Specific risks related to the express structure of the Securities. In case of the occurrence of an Early Redemption Event, the Securities will automatically expire early on the respective Early Redemption Observation Date, a so-called express structure. In such case, Securityholders are entitled to request payment of the Early Redemption Amount, but are not entitled to request any further payments on the Securities.

Specific risks related to the linkage of Securities to the Relevant Underlying. Potential investors should be aware that the level of the Redemption Amount may, in certain circumstances, solely refer to the performance of the Underlying with the lowest performance as of the Valuation Date. Potential investors should, consequently, be aware that compared to Securities, which refer to only one underlying, the Securities linked to a portfolio of Underlyings show a higher exposure to loss. This risk may not be reduced by a positive or, as the case may be, negative performance of the remaining Underlyings, because the remaining Underlyings may not be taken into account when calculating the level of the Redemption Amount.

Specific risks related to the termination and early redemption of the Securities at the option of the Issuer; Re-investment risk. Potential investors should be aware that the Issuer is, pursuant to the Conditions of the Securities, entitled to terminate and redeem early the Securities in a number of circumstances. In case of such termination and early redemption of the Securities, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital**.

Further, the Securityholders bear the risk of a re-investment. The re-investment risk is the risk that the cash amount received by the Securityholder following a termination and early redemption of the Securities (if any) can only be reinvested by such Securityholder for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable (such as a lower return or an increased risk) than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this re-investment, i.e. new investment, over the respective term may be significantly lower than the return expected by the Securityholder with the purchase of the Securities. Moreover and depending on market conditions prevailing at the time of the new investment, the likelihood of a loss of such amounts re-invested may have increased significantly.

Specific risks related to the pricing of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of the performance of the Underlyings. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital**.

Specific risks related to the trading in the Securities / Illiquidity. Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlyings, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

Specific risks related to potential conflicts of interest. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or even suffering a partial loss of the invested capital. Such conflicts of interest may arise in connection with the Issuer's involvement in other transactions, the Issuer's existing business relationship with the issuer of any of the Underlyings or with the Issuer acting in any other capacity.

Risk of fluctuations in the value of the Underlying. By investing in Securities linked to the Underlyings, Securityholders are subject to the risks related to such Underlyings. The performance of the Underlyings is subject to fluctuations. Therefore, Securityholders cannot foresee what consideration they can expect to receive for the Securities on a certain day in the future. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile the Underlyings are, the less predictable the amount to be received by the Securityholders following redemption or disposal of the Securities would be. In case of an unfavourable development of the Price of any Underlying, the **amount received** by the Securityholders in connection with such disposal **may be very low or even be equal to zero**.

Uncertainty about future performance of the Underlying. It is not possible to reliably predict the future performance of the Underlyings. Likewise, the historical data on the Underlyings does not allow for any conclusions to be drawn about the future performance of the Underlyings and the Securities. The Underlyings may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. Poor performance of the Underlyings would lead to payment of a lower Redemption Amount or any other amount(s) payable under the Securities. In some cases, investors may even suffer **a total loss of the invested capital**.

Section D – Key Information on the offer of Securities to the public and/or the admission to trading on a regulated market	
Under which conditions and timetable can I invest in this Security?	
	<p>It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and shall place the Securities for sale in Norway (the "Public Offer Jurisdiction") at an amount equal to 100 % of the Nominal Amount (the "Issue Price") plus an offering premium amounting to up to 3 % of the Nominal Amount under terms subject to change in the Public Offer Jurisdictions during the Subscription Period. The Issue Price was fixed at the start of the public offer of the Securities. After closing of the Subscription Period, the selling price will then be adjusted on a continual basis to reflect the prevailing market situation. The total expenses of the issue and/or offer are not separately identifiable and included in the general operating expenses of the Issuer.</p> <p>The Securities may be subscribed from the Manager during normal banking hours between 1 September 2020 and 25 September 2020 (the "Subscription Period"). The Issue Price per Security is payable on the Initial Payment Date. The Issuer reserves the right to earlier close or to extend the Subscription Period if market conditions so require.</p>
Who is the offeror and/or the person asking for admission to trading?	
	<p>Offeror: UBS Europe SE, a public company incorporated under German law and domiciled in Germany (the "Manager"). Person asking for admission to trading: the Issuer</p>
Why is this Prospectus being produced?	
	<p>Use and estimated net amount of the proceeds The Issuer intends to issue and offer the Securities to the public in order to raise funding for general business purposes of the UBS Group. The net amount of the proceeds are not quantifiable.</p> <p>Underwriting agreement(s) It has been agreed that the Manager shall underwrite the Securities on or after the respective Issue Date by means of an underwriting agreement and shall place them for sale under terms subject to change in the Public Offer Jurisdictions.</p> <p>Most material conflicts of interest The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlyings, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations.</p> <p>Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.</p>

¹ Med virkning 1. januar 2019, forandret UBS AG fremleggelsen av inntekt og utgifter fra utbytte. Dette medførte en reklassifisering av utbytte fra *Renteinntekt (-utgift) fra finansielle instrumenter målt til virkelig verdi ved gevinst eller tap til Andre nettoinntekter fra finansielle instrumenter målt til virkelig verdi ved gevinst eller tap* (før 1. januar 2019: *Andre nettoinntekter fra endringer i virkelig verdi på finansielle instrumenter*). *Netto renteinntekter og Andre nettoinntekter fra finansielle instrumenter målt til virkelig verdi ved gevinst eller tap* for foregående år ble justert tilsvarende for sammenligning.

² Informasjon fra Balansen for året som sluttet 31. desember 2017 er hentet fra årsrapporten for 2018.

³ De uvektede eksponeringene per 30. juni 2020, som brukes for beregningen av avkastningen, gjenspeiler ikke virkningene av det midlertidige fritaket som har blitt innvilget av FINMA i forbindelse med COVID-19.

⁵ Informasjonen som er oppgitt i sveitsiske franc i årsrapporten for 2017 for perioden som sluttet den 31. desember 2017 (CHF 33 240 millioner) har blitt revidert.

⁶ I rammen av den nåværende COVID-19-pandemien og tiltak som er iverksatt av myndigheter i den forbindelse, har FINMA tillatt at banker midlertidig ekskluderer innskudd hos sentralbanken ved beregning av kapitaldekningsandelene frem til 1. januar 2021.

Dette tallet gir informasjon om størrelsen på kundemidlene som forvaltes av eller som er innskudd hos UBS med investeringsformål.

Hva er de fremste risikoene som er spesifikke for utstederen?

Kreditrisiko i forbindelsene med UBS AG som utsteder
Enhver investor i verdipapirer som er utstedt av UBS AG som Utsteder er eksponert mot UBS AG sin kreditrisiko. Vurderingen av UBS AG sin kredittverdighet kan påvirkes av flere faktorer og begivenheter. Disse omfatter endringer i markeds- og makroøkonomiske forhold, eksponering mot kreditrisiko fra kunder og motparter, utfall av krav, tvister, rettslige behandlinger og myndighetsgranskning, tilgang til finansieringskilder, endringer i lov og regulering som gjelder finansielle institusjoner, økte forventninger fra regulerende myndigheter og regulatoriske endringer, skade på omdømme og operasjonell risiko.
Dersom UBS opplever finansielle vansker, har FINMA myndighet til å starte restrukturering- eller likvideringsprosesser eller til å innføre beskyttelsestiltak knyttet til UBS Group AG, UBS AG eller UBS Switzerland AG, og slike prosesser eller tiltak kan ha en vesentlig negativ virkning på UBS sine aksjeeiere og kreditorer.
Dersom restrukturering- eller likvideringsprosesser innledes mot UBS AG, vil eiere av verdipapirer kunne lide betydelige eller fullstendige tap på verdipapirene.

Del C – Nøkkelinformasjon om Verdipapirene

Hva er de fremste egenskapene hos Verdipapirene?

Verdipapirenes type og form

Verdipapirene er sertifikater uten kapitalbeskyttelse.

Verdipapirene er utstedt i form av verdipapir i userterfisert og dematerialisert, bokført form, under norsk lov. Verdipapirenes innhold (annet enn formen) samt alle rettigheter og plikter som stammer fra Verdipapirene er underlagt tysk lov.

Rettigheter som er knyttet til Verdipapirene, utbetalingsprofil ved berammet forfall

Verdipapirene vil gi Eieren av Verdipapiret, ved forfall, rett til en utbetaling av Innløsningsbeløpet i Innløsningsvalutaen. Innløsningsbeløpet, hvis noe, som skal mottas av Eieren av Verdipapiret ved forfall, avhenger av resultatet på det Underliggende og om hvorvidt en såkalt «**Kick-in**»-hendelse har inntruffet, dvs. hvorvidt Prisen på minst ett Underliggende_(i) på Verdsettelsesdato er lavere enn det respektive Kick-in-nivået_(i).

Dersom Verdipapiret ikke utløper tidlig, vil Eieren av Verdipapiret, på den aktuelle Forfallsdato, være berettiget til å motta en utbetaling på Innløsningsbeløpet som fastsatt på den aktuelle Verdsettelsesdato.

«**Innløsningsbeløpet**» med hensyn til Verdipapirene fastsettes som følger:

- (a) Dersom en Kick-in-hendelse ikke har funnet sted, er Eieren av Verdipapiret berettiget til å motta det Nominelle beløpet.
- (b) Dersom en Kick-in-hendelse har funnet sted, er Eieren av Verdipapiret berettiget til å motta det Nominelle beløpet multiplisert med Oppgjørspriisen_(i) på det Underliggende_(i) med lavest resultat dividert på Innløsningskursen_(i) på denne Underliggende_(i).

I tilfelle en Førtidig Innløsningshendelse finner sted, vil Verdipapiret forfalle tidlig på den respektive Observasjonsdato for Førtidig Innløsning, og Eieren av Verdipapiret har rett til å motta det Førtidige Innløsningsbeløpet på den aktuelle Forfallsdato i Innløsningsvalutaen. I denne sammenheng så finner en «**Førtidig Innløsningshendelse**» sted om Prisen på alle Underliggende_(i) på en Observasjonsdato for Førtidig Innløsning er lik eller høyere enn det respektive Førtidig Innløsningsnivået_(i).

Utstederen har rett til å terminere Verdipapirene med umiddelbar virkning hvis en (ekstraordinær) termineringshendelse finner sted. Eksempler på (ekstraordinære) termineringshendelser omfatter stans i fastsettelsen/publiseringen av Prisen for de Underliggende, eller at det forekommer en endring i lowerket. I et slikt tilfelle kan det betalbare termineringsbeløpet som skal betales til Eierne av Verdipapirene være betydelig lavere enn den kapital som ble investert av Eierne av Verdipapirene ved anskaffelse av Verdipapirene (inkludert transaksjonskostnader).

Rentebetalinger

Dersom Verdipapirene ikke har utløpt tidlig, er Eierne av Verdipapirene, ved hver Rentebetalingsdato, berettiget til å motta en betaling av Kupongbeløpet i Innløsningsvalutaen, gitt følgende vilkår.

Dersom, på enhver Renteobservasjonsdato, en «**Hendelse med mislighold av kupongbeløpet**» finner sted, dvs. om Prisen på minst ett Underliggende⁽ⁱ⁾ er lavere enn det respektive Kupongmisligholdsnivået⁽ⁱ⁾, vil ikke Eierne av Verdipapirene motta betaling av Kupongbeløpet på den aktuelle Rentebetalingsdato.

Imidlertid, dersom en Hendelse med mislighold av kupongbeløpet har funnet sted, men, på en etterfølgende Kupongobservasjonsdato, en «**Innhentingshendelse for Kupongbeløpet**» finner sted, dvs. dersom Prisen på alle Underliggende⁽ⁱ⁾ er, på en slik Kupongobservasjonsdato, lik eller høyere enn det respektive Innhentingsnivået for Kupongbeløpet⁽ⁱ⁾, vil Eierne av Verdipapirene, på den påfølgende Rentebetalingsdato motta betaling av Kupongbeløpet knyttet til den aktuelle Kupongobservasjonsdato og alle forutgående Kupongobservasjonsdatoer hvor et Kupongbeløp ikke ble betalt.

Den relative prioriteten til Verdipapirene i Utstederens kapitalstruktur i tilfelle insolvens

Verdipapirene utgjør en direkte, usikret og underordnet forpliktelse for Utstederen, med lik prioritet, *pari passu*, seg imellom og sammen med alle nåværende og fremtidige usikrede og underordnede forpliktelser hos Utsteder, med unntak av forpliktelser som er lovpålagt gjennom bestemmelse i lov.

Restriksjoner på fri omsetting av Verdipapirer

Verdipapirene er fritt omsettelige.

Hvor vil Verdipapirene omsettes?

Det er hensikten at det skal søkes om notering av Verdipapirene på Nasdaq Stockholm, i markedssegmentet *STO Structured Products NOK*.

Hva er de fremste risikoene som er spesifikke for Verdipapirene?

Eierne av Verdipapirene er eksponert mot risiko for bail-in. I tilfelle FINMA, som Utsteders ansvarlige tilsynsorgan, iverksetter tiltak mot Utsteder og skriver ned eller konverterer Verdipapirene til egenkapital hos Utsteder, vil ikke Eierne

av Verdipapirene lenger ha noe tilgodehavende på Utstederen i form av Verdipapirene.

Verdipapirene er ikke beskyttet av noe lovpålagt eller frivillig innskuddsgarantiordning. Utstederens forpliktelse som kommer av Verdipapirene, er ikke beskyttet av noe lovpålagt eller frivillig innskuddsgarantiordning eller kompensasjonsordning. Videre er det ingen tredjepartsgarantier eller -forpliktelser som er stilt med hensyn til Utsteders forpliktelser som følger av Verdipapirene. Dette innebærer at, ved insolvens hos Utstederen, kan investorer oppleve **et tap av hele den investeringen som er gjort i Verdipapirene**.

Spesifikk risiko knyttet til avhengigheten til de Underliggende. Innløsningsbeløpet som er betalbart i samsvar med Vilkårene for Verdipapirene, avhenger av resultatet til de Underliggende. I særdeleshet vil et ugunstig resultat på de Underliggende kunne redusere Innløsningsbeløpet som er betalbart til Eierne av Verdipapirene. Dersom Oppgjørsprisen på minst ett Underliggende er under det aktuelle Kick-in-nivået, kan Innløsningsbeløpet bli lavere enn forventet av investorene og investorene kan til og med lide **tap av hele den investerte kapitalen**.

Spesifikk risiko knyttet til ekspress-strukturen til Verdipapirene. I tilfelle en Førtidig Innløsningshendelse finner sted, vil Verdipapirene automatisk utløpe tidlig på den respektive Observasjonsdato for Førtidig Innløsning, en såkalt ekspress-struktur. I et slikt tilfelle har Eiere av Verdipapirene rett til å be om betaling av det Førtidige Innløsningsbeløpet, men har ikke rett til å be om ytterligere utbetaler fra Verdipapirene.

Spesifikk risiko knyttet til koblingen av Verdipapirene til den Relevante Underliggende. Mulige investorer bør være klar over at nivået på Innløsningsbeløpet kan, under visse omstendigheter, utelukkende tilskrives resultatet på det Underliggende med lavest resultat på Verdssettelsesdato. Mulige investorer bør, som følge av dette, være klar over at sammenlignet med Verdipapirer som er koblet til bare ett Underliggende, har Verdipapirer som er koblet til en portefølje med Underliggende en større eksponering mot tap. Denne risikoen trenger ikke å bli redusert ved et positivt eller, som kan være tilfelle, negativt resultat på de gjenværende Underliggende, fordi de gjenværende Underliggende vil ikke bli tatt i betraktning ved beregningen av nivået på Innløsningsbeløpet.

Spesifikk risiko knyttet til terminering og førtidig innløsning av Verdipapirene etter utsteders valg, reinvesteringsrisiko. Mulige investorer bør være klar over at Utstederen har, i henhold til Vilkårene for Verdipapirene, rett til å terminere Verdipapirene og innløse førtidig under ulike omstendigheter. Ved slik terminering og førtidig innløsning av Verdipapirene, har Eieren av Verdipapirene rett til å kreve betaling av et beløp i Innløsningsvalutaen knyttet til termineringen og den førtidige innløsningen. Dette beløpet kan imidlertid være vesentlig lavere enn det beløpet som ville ha vært betalbart ved berammet forfall på slutten av Verdipapires løpetid og, om det er lavere enn investert kapital, vil Eieren av Verdipapirene til og med kunne lide **tap av hele den investerte kapitalen**.

Eierne av Verdipapirene bærer videre risikoen for reinvestering. Reinvesteringsrisiko er risikoen for at kontantbeløpet som mottas av Eieren av Verdipapirene etter en terminering og førtidig innløsning av Verdipapirene (om noen) bare kan reinvesteres av Eieren for en periode som er sammenlignbar med den berammede løpetiden under markedsforhold som er mindre gunstige (det vil si lavere avkastning eller økt risiko) enn de som rådet på tidspunktet for anskaffelse av Verdipapirene. Dermed kan den avkastningen som oppnås på denne reinvesteringen, over den respektive løpetiden, være vesentlig lavere enn den avkastningen Eieren av Verdipapiret forventet ved anskaffelsen av Verdipapiret. Videre, og avhengig av de rådende markedsforhold på tidspunktet for den nye investeringen, kan sannsynligheten for tap ved slike reinvesterte beløp ha økt betydelig.

Spesifikk risiko knyttet til prisingen av Verdipapirene. Mulige investorer bærer risikoen for at markedsprisen på Verdipapirene kan svinge under Verdipapires løpetid, inkludert, men ikke begrenset til, som følge av resultatet på de Underliggende. Tilsvarende bærer Eieren av Verdipapirene risikoen for at, om de kan selge noen Verdipapirer før deres forfall, så kan salgsprovenyet være under (også vesentlig under) beløpet som opprinnelig ble investert i Verdipapirene, og investorene vil da **tape noe eller hele den investerte kapitalen**.

Spesifikk risiko knyttet til omsetting av Verdipapirene/manglende likviditet. Mulige investorer bærer risikoen for at det ikke finnes et likviditet i markedet for omsetting av Verdipapirene. Fordi de er strukturer og er koblet til de Underliggende, har Verdipapirene generelt sett et mer begrenset sekundært marked enn konvensjonelle gjeldspapirer. Dette innebærer en risiko for at man ikke kan selge Verdipapirene etter eget valg. Dette kan videre medføre at mulige investorer mottar et lavere salgsproveny enn de ville ha mottatt om det fantes likviditet i markedet.

Spesifikk risiko knyttet til interessekonflikter. Utstederen og dets tilknyttede selskaper kan ha kommersielle interesser som er i konflikt med interessene til Eierne av Verdipapirene og som kan ha en innvirkning på verdien og/eller omsettingen av Verdipapirene. Dette kan videre føre til at Eieren av Verdipapirene mottar mindre proveny ved salg av Verdipapirer de måtte eie enn de ville ha mottatt uten en slik interessekonflikt og/eller til og med lide delvis tap av den investerte kapitalen. Slike interessekonflikter kan oppstå i forbindelse med Utsteders involvering i andre transaksjoner, Utstederens eksisterende forretninger med utstederen av noen av de Underliggende eller ved at Utstederen opptrer i en hvilken som helst annen rolle.

Risiko for svingninger i verdien på det Underliggende. Ved å investere i Verdipapirer som er koblet til de Underliggende, er Eierne av Verdipapirene utsatt for risiko knyttet til disse Underliggende. Resultatet på de Underliggende er gjenstand for svingninger. Derfor kan ikke Eierne av Verdipapirene forutse hva slags vederlag de vil motta for Verdipapirene på en bestemt dag i fremtiden. Når Verdipapirene innløses, utøves eller på annet vis blir avhendet på en bestemt dag, kan betydelige tap oppstå sammenlignet med avhending på et tidligere eller senere tidspunkt. Jo større volatilitet et Underliggende har, desto mindre forutsigbar vil beløpet som vil mottas av Eieren av Verdipapiret etter innløsning eller avhending av Verdipapiret være. I tilfelle ugunstig utvikling på Prisen på et hvilket som helst Underliggende, kan **beløpet mottatt** av Eieren av Verdipapiret i forbindelse med en slik avhending **være veldig lavt**

eller til om med lik null.
Usikkerhet rundt fremtidig resultat på den Underliggende. Det er ikke mulig å forutsi fremtidig resultat på de Underliggende med pålitelighet. På samme måte vil ikke historiske data på de Underliggende kunne brukes for å trekke konklusjoner om fremtidig resultat på de Underliggende og Verdipapirene. De Underliggende har kanskje bare en kort historie med drift eller har kanskje bare eksistert en kort tidsperiode og kan levere resultater over lang tid som kan være lavere enn opprinnelig forventet. Dårlige resultater for de Underliggende vil føre til betaling av et lavere Innløsningsbeløp eller andre beløp som er betalbare fra Verdipapirene. I noen tilfeller kan investorer til og med lide tap av hele den investerte kapitalen.

Del D – Nøkkelinformasjon om emisjon av Verdipapirer i offentligheten og/eller adgang til å handle i et regulert marked
Under hvilke vilkår og tidsramme kan jeg investere i dette Verdipapiret?
Det er enighet om at, på eller etter den respektive Utstedelsesdato for Verdipapirene, kan Forvalteren kjøpe Verdipapirer og skal legge Verdipapirene ut for salg i Norge (« Jurisdiksjonen for den Offentlige emisjonen ») til et beløp som er lik 100 % av det Nominelle beløpet (« Utstedelseskursen ») pluss en tilbudspremie som beløper seg opp til 3 % av det Nominelle beløpet med vilkår som kan endres i Jurisdiksjonen for den Offentlige emisjonen under Tegningsperioden. Utstedelseskursen ble fastsatt ved begynnelsen av den offentlige emisjonen for Verdipapirene. Etter at Tegningsperiode lukkes, vil salgsprisen så justeres på en kontinuerlig basis for å gjenspeile de rådende markedsforholdene. De samlede utgifter ved utstedelsen og/eller emisjonen er ikke for seg identifiserbare og inkluderes i de generelle driftskostnader for Utstederen. Verdipapirene kan tegnes fra Forvalteren under normale åpningstider for bankene mellom 1. september 2020 og 25. september 2020 (« Tegningsperioden »). Utstedelseskursen per Verdipapir skal betales på Initierell Betalingsdato. Utstederen reserverer seg retten til å forlenge eller avkorte Tegningsperioden om markedsforholdene gjør dette nødvendig.
Hvem er tilbyderen og/eller personen som søker om adgang til omsetting?
Tilbyderen: UBS Europe SE, et aksjeselskap, stiftet under tysk lov og hjemmehørende i Tyskland (« "Forvalteren" »). Personen som søker om adgang til omsetting: Utsteder
Hvorfor er dette Prospektet utarbeidet?
<p>Bruk og beregnet netto proveny Utstederen har til hensikt å utstede og tilby Verdipapirene til offentligheten for å finansiere generelle driftsformål i UBS Group. Provenyets nettobeløp er ikke mulig å tallfeste.</p> <p>Avtale(r) om fulltegningsgaranti Det er enighet om at Forvalteren skal fulltegne Verdipapirene på eller etter den respektive Utstedelsesdato gjennom en avtale om fulltegningsgaranti («underwriting») og skal legge dem ut for salg under vilkår som kan endres i Jurisdiksjonen for den Offentlige emisjonen.</p> <p>De vesentligste interessekonfliktene Utstederen og tilknyttede selskaper kan delta i transaksjoner som på en eller annen måte er knyttet til Verdipapiret, på egne vegne eller på vegne av en kunde. Slike transaksjoner behøver ikke å være til fordel for Eierne av Verdipapiret og kan få en negativ eller positiv virkning på verdien av de Underliggende, og følgelig på verdien av Verdipapirene. Videre kan Utstenders tilknyttede selskaper være motpart i sikringsforretninger knyttet til Utstederens forpliktelser med opphav i Verdipapirene. Som en konsekvens av dette kan interessekonflikter oppstå mellom Utstederens tilknyttede selskaper, samt mellom disse selskapene og investorer, i forbindelse med forpliktelser knyttet til beregning av prisen på Verdipapirene og andre relaterte fastsettelser.</p> <p>I sammenheng med kjøp og salg av Verdipapirene, kan Utstederen og et av dets tilknyttede selskaper direkte eller indirekte betale gebyrer i ulik grad til tredjeparter, slik som distributører eller investeringrådgivere, eller motta betalinger av gebyrer i ulik grad, også de som er krevd i forbindelse med distribusjon av Verdipapirene, fra tredjeparter. Mulige investorer bør være klar over at Utstederen kan beholde gebyrer, helt eller delvis.</p>
