

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and regulations made thereunder (the "UK Prospectus Regulation"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (as amended, the "UK PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the United Kingdom as described in the above paragraph and in such legend shall no longer apply.

10. **UNITED STATES TAX CONSIDERATIONS**

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Calculation Amount per Certificate is SEK 10,000 and the Issue Price is 100 per cent. (100%) of the Aggregate Nominal Amount;
- (ii) in respect of each Underlying Asset:
 - (a) the Autocall Level is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset;
 - (b) the Trigger Level is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset;
 - (c) the Trigger Protection Level is 1.00;
 - (d) the Barrier Level is 60 per cent. (60%) of the Asset Initial Price of such Underlying Asset;
 - (e) the Coupon Barrier Level 1 is 100 per cent. (100%) of the Asset Initial Price of such Underlying Asset; and
 - (f) the Coupon Barrier Level 2 is 80 per cent. (80%) of the Asset Initial Price of such Underlying Asset; and
- (iii) the Redemption Percentage is 100 per cent. (100%).

The actual Aggregate Nominal Amount, Autocall Event Floor Amount, Trigger Event Floor Amount and Coupon Value will each be determined by the Calculation Agent on or around November 21, 2024 and (i) the Aggregate Nominal Amount may be lesser or greater than SEK 100,000,000 (but shall not be greater than SEK 1,000,000,000), (ii) the Autocall Event Floor Amount for the first Autocall Observation Date may be a lesser or greater amount than 0.25 (but shall not be less than 0.18), (iii) the Trigger Event Floor Amount may be a lesser or greater amount than 1.25 (but shall not be less than 0.90), and (iv) the Coupon Value may be greater amount than 0.10 (but shall not be less than 0.10). Therefore, as the actual Aggregate Nominal Amount, Autocall Event Floor Amount, Trigger Event Floor Amount and Coupon Value may each be lower than the deemed values used for the purposes of these Examples, the actual amounts received by investors may be less than the amounts stated in the Examples below.

AUTOMATIC EARLY EXERCISE AND COUPON AMOUNT

Example 1 – Automatic Early Exercise but no Coupon Amount: *The Reference Price of each Underlying Asset for the first Autocall Observation Date is greater than or equal to its respective Autocall Level. The Basket Performance is 0.40.*

In this Example, the Certificates will be automatically exercised on such Autocall Observation Date, and the Automatic Early Exercise Amount payable per Certificate (of the Calculation Amount) on the Automatic Early Exercise Date immediately following such Autocall Observation Date will be an amount in the Settlement Currency equal to the Autocall Event Amount for the first Autocall Observation Date, i.e., SEK 14,000. No Coupon Amount will be payable on the Coupon Payment Date falling on such Automatic Early Exercise Date.

Example 2 – no Automatic Early Exercise but Coupon Amount: *The Reference Price of one Underlying Asset for the first Autocall Observation Date is less than its Autocall Level but greater than or equal to its Coupon Barrier Level 2, and the Reference Price of each other Underlying Asset for such Autocall Observation Date is greater than or equal to its respective Autocall Level*

In this Example, the Certificates will not be automatically exercised on such Autocall Observation Date. A Coupon Amount equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Coupon Value, i.e., SEK 1,000, will be payable per Certificate (of the Calculation Amount) on the Coupon Payment Date immediately following such Autocall Observation Date.

Example 3 – no Automatic Early Exercise and no Coupon Amount: *The Reference Price of one Underlying Asset for the first Autocall Observation Date is less than its Coupon Barrier Level 2, and the Reference Price of each other Underlying Asset for such Autocall Observation Date is greater than or equal to its respective Autocall Level.*

In this Example, the Certificates will not be automatically exercised on such Autocall Observation Date and no Coupon Amount will be payable on the Coupon Payment Date immediately following such Autocall Observation Date.

SETTLEMENT AMOUNT

Example 4 – positive scenario: *The Certificates have not been exercised on an Applicable Date, and the Final Closing Price of each Underlying Asset is 100 per cent. (100%) or more of its respective Asset Initial Price. The Trigger Basket Performance is 0.60.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *sum* of (a) the Trigger Protection Level, *plus* (b) the *greater* of (I) the Trigger Basket Performance, and (II) the Trigger Event Floor Amount, i.e., SEK 22,500.

Example 5 – neutral scenario: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 79 per cent. (79%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 80 per cent. (80%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Redemption Percentage, i.e., SEK 10,000.

Example 6 – negative scenario: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 59 per cent. (59%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 60 per cent. (60%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 100 per cent. (100%) of the Initial Closing Price of the Final Worst Performing Asset, i.e., SEK 5,900. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates.**

Example 7 – negative scenario: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is zero per cent. (0%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 60 per cent. (60%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the

Final Closing Price of the Final Worst Performing Asset, *divided* by (b) 100 per cent. (100%) of the Initial Closing Price of the Final Worst Performing Asset, i.e., zero. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a total loss of the amount invested in the Certificates.**

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer. The Securities are the Issuer's unsecured obligations. Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. The Securities are not bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSI is a wholly-owned subsidiary of the Goldman Sachs group and a key banking subsidiary of the Goldman Sachs group. As a result, it is subject to a variety of risks that are substantial and inherent in its businesses including risks relating to economic and market conditions, regulation, market volatility, liquidity, credit markets, concentration of risk, credit quality, composition of client base, derivative transactions, operational infrastructure, cyber security, risk management, business initiatives, operating in multiple jurisdictions, conflicts of interest, competition, changes in underliers, personnel, negative publicity, legal liability, catastrophic events and climate change.
- GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) –

¹ "Fees and commissions" are included within "non-interest income" and therefore are not included as a single line item.

² "Subordinated loans" are included within "total unsecured borrowings" and therefore are not included as a single line item.

the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

Non-scheduled Early Repayment Amount: The Securities may be redeemed prior to the scheduled maturity: (i) at the Issuer's option (a) if the Issuer determines that a change in applicable law has the effect that performance by the Issuer or its affiliates under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), or (b) where applicable, if the calculation agent determines that certain additional disruption events or adjustment events as provided in the terms and conditions of the Securities have occurred; or (ii) upon notice by a holder declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

In such case, the Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging arrangement. *The Non-scheduled Early Repayment Amount may be less than your initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.*

What are the key risks that are specific to the Securities?
<p>Risk factors associated with the Securities: The Securities are subject to the following key risks:</p> <ul style="list-style-type: none"> • The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted. • Depending on the performance of the Underlying Assets, you may lose some or all of your investment. • The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount. • Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero. <p>Risks relating to certain features of the Securities:</p> <ul style="list-style-type: none"> • The terms and conditions of your Securities provide that the Securities are subject to a cap. Therefore, your ability to participate in any change in the value of the Underlying Assets over the term of the Securities will be limited, no matter how much the price of the Underlying Assets may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Assets directly. • The terms and conditions of your Securities provide that the return on the Securities depends on the "worst-of" performance of the basket of Underlying Assets. Therefore, you will be exposed to the performance of each Underlying Asset and, in particular, to the Underlying Asset which has the worst performance. This means that, irrespective of how the other Underlying Asset performs, if any Underlying Asset fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any settlement amount, you may receive no interest payments and/or could lose some or all of your initial investment. <p>Risks relating to the Underlying Assets:</p> <ul style="list-style-type: none"> • <i>The value of and return on your Securities depends on the performance of the Underlying Assets.</i> The return on your Securities depends on the performance of the Underlying Assets. The price of the Underlying Assets may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the price, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile. • <i>Past performance of an Underlying Asset is not indicative of future performance.</i> You should not regard any information about the past performance of the Underlying Assets as indicative of the range of, or trends in, fluctuations in the Underlying Assets that may occur in the future. The Underlying Assets may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities. • The performance of the Shares is dependent upon the macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings

position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Assets which, in turn, would have a negative effect on the value of and return on your Securities.
